

# mirafloor

arrunga surface solutions

“Arrunga's Mirafloor surface has proven itself in the Duncan Gallery at the Adelaide Showground. Five years on, withstanding thousands of visitors and ‘bump in’ and ‘bump out’ traffic, it still looks as good as the day it was finished.”

Christie Bailey - Senior Associate, HASSELL

**Developed over sixteen years and incorporating real-world experience of concrete finishing for homes, businesses, and industry, Mirafloor™ is a comprehensive concrete-finishing system designed to maximise the aesthetic and functional benefits of polished concrete in any environment.**

#### EXPERIENCE. EXPERTISE. EFFICIENCY.

**Mirafloor** is a proprietary polished concrete system developed by **Arrunga Surface Solutions**, Adelaide's No.1 polished concrete company.

Operating nationwide we use the latest equipment and technology to ensure projects are finished to the highest specifications.

#### A MANUFACTURER, NOT A RESELLER.

When you specify Mirafloor you do so with the confidence of dealing directly with the original manufacturer, not a reseller of some other company's product.

We have the expertise and experience to undertake any scale of project from large industrial areas to commercial showrooms and residential projects.

#### A TRACK RECORD OF EXCELLENCE.

Our clients include well-known construction firms, architects, and designers.

Mirafloor has been selected for landmarks such as the Adelaide Airport concourse, the Adelaide Zoo gateway and function centre, the Adelaide Hills Library, and the Adelaide Showgrounds Duncan Gallery.

When you choose Mirafloor you're not choosing a boxed product – you're choosing an integrated concrete solution backed by the supporting systems and expertise of Arrunga Surface Solutions.

Our clients specify Mirafloor secure in the knowledge that we have the capacity and expertise to quickly and efficiently deliver a surface of the highest quality at the best price.

**Avoid frustrating time-consuming tenders and specify Mirafloor on day one.**

**Mirafloor transforms structural concrete into an attractive, durable, high-performance surface.**

Mirafloor polished concrete offers a range of floor styles and finishes that provide varying degrees of shine, colour, effect and durability. An economical alternative to marble or granite floors, polished concrete opens up an array of design opportunities, from classic to contemporary, rustic to sophisticated.

Polished concrete can be applied indoors and outdoors and will satisfy every possible hard surface application in the building and interior design industries.

Hygienic and low-maintenance, polished concrete is suited to a wide range of settings including cafes, restaurants, hotels, offices, retail space, shopping centres, supermarkets, wineries, warehouses, showrooms, galleries, and museums.

Mirafloor polished concrete is abrasion- and chemical- resistant, long-lived, non-marking, and concrete-dust free. With durability and longevity many times greater than other surfaces Mirafloor will withstand the toughest traffic, minimising maintenance costs over the lifespan of a floor.

**For stylish versatile flooring that is durable and easy to maintain specify Mirafloor today.**
